About Me

Computer Science undergraduate with strong coding skills and a passion for building scalable, efficient solutions. Proficient in Java, Python, and SQL, with experience developing applications and solving problems with strategic thinking and clear communication to contribute effectively to software engineering teams.

Education

School of Computer Engineering, KIIT University, Odisha

Bachelor of Technology - Computer Science

September 2022 - Present

CGPA: 8.55

Delhi Public School, Joka, Kolkata

May 2019 - March 2021

Percentage: 78%

Orient Day School, Behala, Kolkata

February 2018 - March 2019

Percentage: 87%

Skills

- **Programming Languages:** Java, Python, C, SQL, Shell Script, JavaScript
- **Databases:** MySQL, H2
- **Web Technologies:** HTML, CSS
- **Frameworks & Tools:** Spring Boot, Streamlit, Jupyter, PyCharm, Visual Studio Code, Excel
- **Soft Skills:** Adaptability, Problem-solving, Teamwork, Analytical Thinking, Strategic Mindset, Effective Communication

Projects

Job Listing Management API

- Developed a RESTful Spring Boot API with CRUD operations, tested via Postman, and integrated with an in-memory H2 database.

Notification Service

- Built a lightweight RESTful microservice to send and retrieve user notifications using Spring Boot and in-memory H2 database

- Implemented layered architecture (Controller-Service-Repository) with JSON APIs for fast prototyping.

Handwritten Digit Recognizer

- Built a digit classification model using Numpy and Pandas.

- Achieved high accuracy in recognizing handwritten digits.

Courses & Certifications

- **Getting Started with AI and Machine Learning** March 2024
- **Machine Learning & Data Science Program by GeeksforGeeks** July 2024
- **HackerRank:** SQL (Basic) Certificate Earned, 3-Star in SQL
